Department of Health Services Children's Medical Services Network (CMS Net) - Information Bulletin # 33

The following changes were implemented during the 1/4/2003 change cycle update to CMS Net:

1. View/Print Narrative screen: Modify the "View Narratives entered by users" field to limit the pick-list to display only the users who have entered a narrative for the selected patient record when the Help Key is selected.
2. Modify Request Narrative: Add an auto-narrative to the Modify Request for Service function. This narrative will indicate which fields that have been modified.
3. Full Screen Device Selection: Modify the print device selection to a full screen application with the options to "Spool" to a network printer, "Screen" print to view on the terminal screen and "Local" to print to a local printer.
4. Enter Request for Service: Add a prompt for "Domain Provider Number" for use with a future enhancement for the Provider Front End project which will allow Providers to access their requests for service. This field is a required field that users will need to enter. Selections are:
NOT IDENTIFIED (999)
SUTTER MEMORIAL HOSPITAL (SU100)
UC DAVIS MEDICAL CENTER (UCD200)

Enter "999" (NOT IDENTIFIED) if the provider is NOT Sutter Memorial or UC Davis.
5. Removed from the Financial Eligibility screen the Reason a Financial Eligibility Determination is Not Required of "Native American with Parent Working on Reservation" per Numbered Letter 12-1202 dated 12/20/2002.
